Mr. Evans

The commercial irrigator for Windsor Square reported that, during the most recent water delivery, your valve was open to allow water to enter your yard while he was delivering water to the District's customers. This materially affected the pressure in the system, making it difficult to give everyone their full complement of water.

We were unable to contact you. SRP phoned you and got no answer. The irrigator knocked on your door but got no answer. Later, I walked to your house and knocked and also got no answer, despite several cars being in the driveway. Water was still flowing into your front and back yards at that time.

As a self-irrigator, you are authorized to take water only if you order it, and only during the time allocated to you by SRP. It will not be at the same time that water is being delivered to the properties who use a commercial irrigator.

If you wish to become a water delivery customer, you must pay for that service. The cost is \$87 per calendar quarter; I will bill you four times a year, or you can pay the full year in advance. The commercial irrigator will then deliver your water.

Please let me know what you decide so this is resolved before the next irrigation cycle. Future taking of water during a District run will result in a demand for payment. To talk to SRP, call (602) 236-3333, or email me at iwdd27@gmail.com.

Cordially,

Ken Furtado
